\* There was a little more animation in the stock market to-day, but it was entirely at the expense of values, and, outside of less than half a dozen stocks of the regular list and the two trusts there was even less business done than at any time since the activity ceased a couple of weeks ago. There is almost nothing doing in the market by commission people, and the room traders are at present interested in Louisville & Nashville, the Northern Pacifics and one or two others, and these stocks today monopolized by far the greater portion of the business done. Advantage was taken early in the day of the apathy of both London and all domestic interests to raid the list, though for the entire forenoon the attack was confined principally to Sugar Trusts, and the price of that stock was hammered down from 1015s at

TRADING AT CHICAGO.

The Ups and Downs of the Market with the Range in Prices of Leading Articles.

CHICAGO, Sept. 24 .- The wheat market

is rapidly broadening. Speculative trading

to-day was again of large volume and the

undertone was very bullish. Opening fig-

ures were 1s@14c above last night's closing

range, and there was a slight reaction an

hour or so later, but thereafter, until pretty

near the close, the tendency was strongly

upward. The principal bullish influences

early were the reported advance of 12d

in the foreign markets, and the decrease

of 1,040,000 bushels in the quantity of wheat

and flour on ocean passage. The bulk of

the trading early was at 81@811sc for De-

cember, and at 84@841se for May, yester-

day's difference of 3c being pretty steadily

maintained. Great buoyancy was shown

just before the adjournment, and final clos-

ng figures were within a small fraction of

the best. An actual gain was established

of 1se in September, 7se in October, 1c in December, 11se in year, and 3se in May. Corn was quiet and inactive early.

but as the session advanced th

market became more active. Trading was confined mainly to the local operators.

The market opened 1860 40 under yesterday's closing prices, was steady for a time, declined 1460 3cc, ruled firmer and closed 18

@14c lower than yesterday. Oats were

closed steady at outside figures. A little more business was transacted in lard and

the feeling was steady. Prices ruled .0210@

05c higher, and the market closed steady at

outside figures. Trading was more active in ribs and the feeling was decidedly

stronger and prices higher, especially for

October delivery, the latter advancing .20@

.221oc early in the day, owing to an urgent demand from "shorts." Prices receded again slightly and closed steady.

The movement, as vas natural, attracted a great leal of attention, and considerable peculation was indulged in as to where the pressure came from, but large stop or-ders were met at about par, and the selling was generally attributed to insiders. The decline was met by the rumor which seems to have some foundation that the company would apply to the Stock Exchange to have its certificates placed upon the regular list, submitting its sworn statement of its standing and complying with the rules of the Exchange. A rally to 99 followed, and at that figure the stock closed. When the rally in Sugar came the traders turned their attention to the rest of the regular

INDIANAPOLIS MARKETS.

A Healthy Volume of Trade in Progress with Strong Prices Prevailing as a Rule.

its volume, there being nothing going on of a speculative nature, and with this, on most lines of staple articles, firm prices rule. In dry goods there is liberal buying, and the same is true of boots and shoes. The leather market is very active, and prices are steady and strong. The hide market is sufficiently active to be healthy, but prices still range low, and at present there is nothing which indicates an early improvement. The dourmarket is fairly active, but the millers still complain of low prices. Grocers are having a busy week. The weak tone to coffees and sugars continues, and on sugars lower prices will not be a surprise; other staple groceries rule firm. In produce markets there is a good movement. Apples and pears are in moderate supply, and selling at better prices than ten days ago. Peaches are about off the market. Watermelons and nutmeg melons are still in ample supply, and selling at prices which the buyer chooses to offer, practically. Irish potatoes are in light supply and firm in price. Sweet potatoes are plenty, and prices rule as last week. Poultry is in good demand at the better prices quoted this week. Eggs very scarce and tending higher. Choice butter is in light supply, and our

best quotations are readily realized. The Indianapolis Market Report shows the receipts of wheat to-day to have been 1f,400 bushels. The demand for wheat is good, and all willing wheats are readily disposed of on arrival.

To five pounds of mele silow two and onehalf pounds of sugar one quart of vinegar. Heat the vine ar and sugar to the boiling point and pour over the citron; let it stand twenty-four hours, then repe scalding the syrup five successive days. In the last boiling of the syrup, add half an ounce of stick cinnamon, half an ounce of white ginger root, and a few cloves. When the syrup boils, put in the meion and boil ten minutes; then put in jars. Skim the syrup clear and pour it over the melon. Cabbage Pickle.-Take four large crisp sabbages and chopfinely with six mediumsized onions, season with salt and leave

over night; next day prepare a pickle by scalding two quarts of vinegar with two pounds of brown sugar, and two table-spoonfuls each of scraped horseradish, ground mustard, celery seed, turmeric, pep-per, allspice, mace and cinnamon. When boiling hot pour it on the cabbage, and on the next three days drain it off, scald, and pour back; the fourth day put all to boil for five minutes, and after cooling pack in jars. This may be used at once.

Sweet Tomato Pickle.-Four quarts of rreen tomatoes and three large onions. Slice them and sprinkle with one cup of salt; let them stand over night. In the morning drain and add to them one quart of water and one pint of vinegar. Boil fifteen minutes, then drain again and throw this vinegar and water away. Add to the pickle one pound of sugar, one quart of vin-egar, one tablespoonful each of clove, allspice, ginger, mustard, cinnamon and onehalf teaspoonful of cayenne, then boil fifteen minutes. This pickle keeps well, but for some reason is never better relished than in the fall and early winter. The sharper acid pickles taste better in the

spring months. Tomato Mustard.—Tomato mustard is an old recipe and a good one. Take one peck green tomatoes sliced very thin and thickly sprinkled with salt. Let them stand all night. In the morning squeeze out the salty juice, slice a quarter of a peck of onions, lay them in a porcelain-lined kettle, tomatoes and onions alternately; add one pound of the best yellow mustard and cover them with vinegar. Boil steadily one bour and pack it away in stone jars. To-mate soy is another good relish and requires one peck of green tomatoes and twelve large white onions. Slice thin and lay them on dishes in alternate layers, sprinkling a little salt on each layer. Let them stand twenty-four hours; drain and put them in a kettle with the following spices scattered through: One ounce each of black pepper, mace, allspice, cloves, mustard, celery-seed (bruised), three pods of red pepper, sliced thin, and three tablespoonfuls of brown sugar. Cover the whole with vine-gar and boil slowly until clear. Pack away in a large stone jar and pour over the whole half a pint each of the best olive oil and brandy mixed.

How to Cook a Steak.

n Old Butcher Now; if you only knew how to cook a steak to make it good that would do, but it always makes me sick to see a woman cook

quickly. As soon as it has crisped enough to let go its hold on the pan turn over and cover quickly; turn again as at first, and continue to do so about every two minutes until you have turned it about six or eight times. Have a hot buttered dish ready for times. Have a hot buttered dish ready for it and lay it in; add a sprinkling of pepper, salt and sugar, and cover tightly. Now, if you wish a gravy, put a bit of butter in your pan. When hot rub in a pinch of flour, add a small teacupful of boiling water, let it boil a few minutes, then put in a gravy boat instead of putting it over your beef to draw out the juice. Now, try this plan just, once and you will see you this plan just once, and you will see you women know nothing about cooking a good

A very complete filling for open cracks in floors may be made by thoroughly soaking newspapers in a paste made by one pound of flour, three quarts of water and a table-spoonful of alum, thoroughly boiled and mixed; make the final mixture about as thick as putty, a kind of paper putty, and it will harden like papier-mache.

it. The smoke and steam from it goes to the very ceiling. After she cooks it this way until it begins to look like an old rubber shoe-sole she calls it done. When you go to eat it there is no more taste it it than a chip. Now, if you want a good bit of steak, have a clear, hot fire, set your clean, empty pan on a spot, cover it up, then pound your steak, and when your pan is very hot lay in your steak and cover

a steak. She invariably puts her fryingpan on the stove and puts in a chunk of grease about as big as my fist, and when it is not enough to begin to crackle she puts in her beef, and never thinks of covering
